

**deadly VIBE Issue 127: teaching resources for classroom teachers, in-class tutors, homework centre tutors etc.**

The following literacy-based activities incorporate modelled, guided and independent activities to address NSW Foundation Statements (English and Mathematics) for Kindergarten - Year 2, National Literacy Benchmarks for Years 3, 5 and 7, NSW Creative Arts syllabus outcomes K-6, NSW Science and Technology outcomes K-6, NSW English outcomes for Stage 4 and 5 and NSW PDHPE outcomes for Stage 5.

Many of the reading and writing strategies in these activities are based on the *Learning to Read: Reading to Learn* scaffolding literacy program developed by Dr David Rose, Principal Research Fellow at the University of Sydney. His work with the Koori Centre is part of a long-term action research program with school and university programs across Australia and internationally, which has developed the *Learning to Read: Reading to Learn* teaching strategies which have shown to consistently accelerate students' literacy learning at the same time as they narrow the gap between the most and least successful students.
